Tejas Pandya

ASP.NET Core MVC Developer

pandyatejas050@gmail.com | +918320333188 | Azad Khadki, Gorwa Gam, Vadodara 390016.

EDUCATION

KJIT   july 2020 - may 2024
INFORMATION TECHNOLOGY BE   Vadodara
CGPA: 8.3

EXPERIENCE

INTERN   Vadodara. India | jan 2024 – may2024

Created a feature-rich website using ASP.NET and the MVC pattern.
Utilized SQL Server for robust database management.
Implemented ADO.NET for effective database operations.
Integrated RESTful APIs for data retrieval and submission ([GET], [POST])
and implemented Razorpay API for secure payment processing.

SKILLS

PROGRAMMING LANGUAGES	C#, HTML, CSS, JavaScript, Razor Syntax
LIBRARIES/FRAMEWORKS	Entity Framework Core, ASP.NET Core MVC
TOOLS / PLATFORMS	Visual Studio, Visual Studio Code
DATABASES	SQL Server

PROJECTS / OPEN-SOURCE

PANTRY2PLATE | LINK   .Net MVC, Ado.net, Local SQL Server Database, APIs

As a part of internship developed this fully functional website.
User can search any recipe through different categories.
User can add recipes and view recipes and also purchase premium recipes.
User can view his subscribed recipes.
User can add Subscription Plan to his own Recipes.
Can update his details and reset password.
User can request mail to reset password.

STUDENT PORTAL | LINK   Asp.net Core MVC, Entity framework, SQL Server Database management

Implemented Entity framework and Asp.net core.
Use SQL Server As database.
Used Restful API for manipulation of data.
Used entity framework for database management
Utilized asynchronous programming with async and await patterns
in C# to ensure non-blocking operations and improve application
responsiveness.
